**Topic / Issue:** RTP port range and Codec's**Written By:** Steven Sismanis

The default RTP port range and Codec prioritisation list can be found in Settings>Ports from the homepage of PBXnSIP.

Codec's are separated by a space and have a number value associated to them.  
See Codec list below.

- 0= G.711u
- 8= G.711a
- 18= G.729
- 2= G.726
- 3= GSM 6.10 FullRate
- 9= G.722
- 4= G.723
